

COVER LETTER

Attention: Human Resources,

I am looking to work with a group of professionals who are interested in developing thoughtfully designed and detailed architecture.

For the last 15 years I have been working as a project architect/manager at various levels of project complexity. My experience covers a wide variety of projects ranging from high end residential and restaurant to commercial projects.

I have been involved with everything from project conception and schematic design through construction documents and construction administration.

I believe that my skills in design and teamwork could be a valuable asset to your firm.

I look forward to talking with you.

Respectfully,

William R. Gray
Project Architect
1060 Meadowbrook Road NE
Palm Bay, Florida 32905
