CAREER:

Work in a successful and motivated office setting that is goal-oriented, competitive and growing in which the company allows me the opportunity to contribute with an emphasis on personal integrity, professionalism and a commitment to service.

SCHOOL:

Kansas University Graduation- May 1994
Bachelor of Architecture

Barstow High School Graduation – June 1988
Kansas City, Mo.

WORK EXPERIENCE:

Schweizer Waldroff Architects, April 2007 – August 2008

Project Manager with responsibilities for commercial, government facilities and religious projects from design conception to construction administration. Experience include code implementation and permitting submittal for Orlando's new three story Fire Station #1 building. Work experience include incorporating sustainable 'Green' design and application of LEED certification.

Scott Partnership Architecture, Interiors, Graphics & Planning, November 2005 – April 2007

Project Manager in providing full architectural service from concept design to construction administration.

Frashier and Associates, January 2001 – November 2005

Architectural contract work in designing and developing commercial properties from design through construction. Project emphasis on retail shops and individual bank branches.

Tillema Design, November 2000 – November 2005

Self-employment architectural service. Specializing in custom residential lake house designs and commercial interior space planning.

Johnson County Community College, January 2001 – June 2002, Part time

Adjunct Professor, teaching Design studio to first year architectural students.

Guy Gronberg Architects, P.C., March 2000 – November 2000

Local architectural firm designing Tenant Finish Build-out for dental offices and small commercial offices. Responsibilities included providing architectural support and AutoCad designing.

Hellmuth, Obata + Kassabaum, Inc., March 1996 – February 2000

Sports Facilities Group, holding position of CAD Project Coordinator in providing architectural services of design/build projects, consisting of stadiums, ballparks, and arenas. Responsibility also included a combined work of two years as a on site architectural project representative, including four months in England for the London Arena remodel project.

Tillema Design, November 1994- March 1996

Designing custom residential homes on Lake Lotawana, MO.

Bixby Construction, May 1994 – December 1994

Design/build custom homes & remodeling under the apprenticeship of a master builder.
