

Valerie Miller, AIA, LEED AP, CDT

Objective

To obtain a full-time position as a project architect at a reputable firm.

Professional experience

June 2008 – Nov. 2008 Gordon and Associates Mount Dora, Florida

Project Architect - Healthcare

- Working on project team for outpatient medical center projects.

April 2006 – Oct. 2007 Eppstein Uhen: Architects Milwaukee, Wisconsin

Project Assistant – Health and Wellness

- Worked primarily on programming, planning and design development of healthcare projects. Worked directly with clients and users to establish needs and goals for projects and participated on the project team to ensure that those goals were met. Green Leadership Team.

June 2004 – Feb. 2006 Partners in Design Architects Kenosha, Wisconsin

Intern Architect – General Studio

- Worked on a variety of commercial, residential and recreational projects. Worked on all phases of projects from site measurement, design development through construction documents and construction management.

July 1997 – Dec. 1997 Eckland Architectural Consultants Deerfield, Illinois

- Worked with architects and engineers, using field data to compile reports into final form in a timely manner for clients. Worked on environmental assessments, field reports, document reviews and property condition reports.

Accreditations

- Registered Architect – Wisconsin, April 2008
- LEED AP – December 2005
- Construction Document Technologist (CSI) – April 2007

Education
