*Tel: 407- 898-7006, [Allison@aiaorlando.com](mailto:Allison@aiaorlando.com)*

## Program at-a-glance

- 8:30 a.m. Registration and Networking Breakfast
- 9:00 a.m. **Ventilated Rainscreen for Improved Moisture Management-** | AIA HSW/SD & | GBCI CE HOUR  
- COSELLA DORKEN
- 10:05 a.m. **Reflective Insulation and Radiant Barriers -** | AIA HSW/SD & | GBCI CE HOUR  
- COVERTECH
- 11:10 a.m. **The Design and Performance Advantages of Composite Shake -** | AIA HSW/SD & | GBCI CE HOUR  
- ENVIROSHAKE
- 12:10 p.m. Networking Lunch
- 12:55 p.m. **Engineered Wood, Sustainability and Green Building Practices -** | AIA HSW/SD & | GBCI CE HOUR  
- NORDIC ENGINEERED WOOD
- 2:00 p.m. **An Introduction to Insulated Concrete Forms -**2 AIA HSW/SD & 2 GBCI CE HOURS –  
- LOGIX INSULATED CONCRETE FORMS (2 hour seminar)

# Agenda

**8:30 a.m. Registration and Networking Breakfast**

**9:00 a.m. Ventilated Rainscreen for Improved Moisture Management  
- COSELLA DORKEN**

This course will explore moisture transport in wall assemblies, review strategies for drainage in wall assemblies, review strategies for drying in exterior wall assemblies, and explore the functions and determine benefits of a rain screen for exterior walls.

**10:05 a.m. Reflective Insulation and Radiant Barriers  
- COVERTECH**

This course is an introduction to reflective insulation and radiant barriers and the fundamentals of heat transfer. The course will explain the effective use of reflective insulation and radiant barriers, identify specific applications and types of reflective products and demonstrate basic installation methods for various applications.

**11:10 a.m. The Design and Performance Advantages of Composite Shake  
- ENVIROSHAKE**

This course provides an overview of the characteristics and green features of composite shake vs. alternative shake options, as well as a discussion of the relationship of composite shake to various green certification programs.

**12:10 p.m. Networking Lunch**

**12:55 p.m. Engineered Wood, Sustainability and Green Building Practices  
- NORDIC ENGINEERED WOOD**

After this session, you will be equipped to: define and discuss sustainability issues, compare construction materials for “green” compatibility, identify and select various green rating tools, compare and contrast green building programs, discuss engineered wood product (EWP) framing systems recognized as “green” by current green building programs, and evaluate various EWP products based on the deconstruction/reconstruction principle.

**2:00 p.m. Engineered Wood, Sustainability and Green Building Practices  
- LOGIX INSULATED CONCRETE FORMS LTD. (2 hour seminar)**

This seminar provides an overview of insulated concrete form (ICF) technology, its applications and its advantages and benefits. Topics relating to ICF design, construction and code compliance are also covered.

**4: 00 p.m. End of Program**

# **AIA Orlando Chapter**

**930 Woodcock Road, Suite 226  
Orlando, FL 32803**

**Fax: 407-898-3399**
