**8:00 AM- 12 NOON (BREAKFAST & LUNCH WILL BE PROVIDED)**

**4 AIA/CES HSW Learning Units**

This seminar clearly demonstrates how to use design options in the various model building codes to provide increased fire protection while controlling construction costs.

**What You'll Learn**

- Determine the inadequacies of current basic building and fire code requirements.
- Provide increased fire protection without increasing construction costs.
- Use the Fire Sprinkler Guide to identify code requirements and design advantages.
- Understand the various types of sprinkler systems and where they are required.
- Have a broader range of material options.
- Much, much more!

Presenter: Gene B. Endthoff...Certified building official and an approved trainer for the International Codes Council.
