EDUCATION

Pre-Licensing

YAF - A.R.E Study Sessions

Join us for a morning lecture and study session prepping you for the ARE exams! We will have Licensed Architects giving specific test prep strategies and answering any tough questions you may have. All sessions will feature small groups that focus on each of the 5.0 Exams in an order that will help facilitate each member's path to licensure.

2+2+2 Program

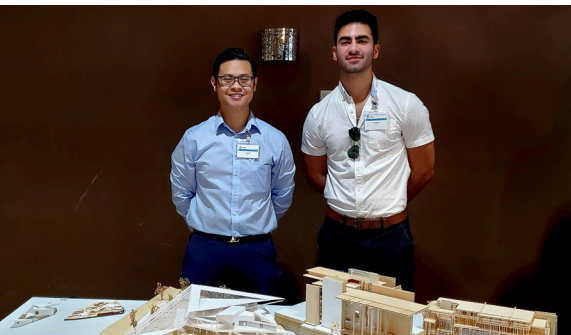

AIA Orlando and The Orlando Foundation for Architecture provide college scholarships to students that participate in the 2+2+2 program at Valencia College, UCF and UF CityLab Orlando. The scholarship program is available to high-achieving students with financial need who seek to attend and graduate from the nation's first 2+2+2 architectural degree program right here in Orlando.

Continuing Education

Continuing education is required for all registered architects who practice in the state of Florida and are members of AIA. The Florida Statutes require architects to complete continuing education for licensure, while the AIA requires it for membership. Each is recorded separately, but can be interchanged, within certain guidelines.

The state of Florida requires 24 CEUs, with 22 hours in HSW and 2 hours in Advanced Building Code biannually of every odd year. AIA requires 18 LU Hours, with 12 hours in HSW annually, due the end of the calendar year. To obtain HSW credits, members must take courses through AIA CES registered Providers.

Credit Provider

If you have a course that is approved for AIA CEUs, we can assist you by hosting your training session. If you need help getting a course approved, visit www.aiaorlando.com/lunch-learns. Once you register and offer a course for AIA CES LU's, it is your responsibility to record and report AIA member credit information within 10 business days of course completion using the Course Attendance Form. Providers must report AIA member credit information each time a course is offered.

There are two (2) types of learning units/ credit designations:

1. General Learning Units (LU): All approved provider courses are eligible for general course LU's. General course LU's are reserved for courses on a wide range of topics related to A/E/C profession, in which 75 percent of the course content is not related to HSW topics.
2. Health, Safety and Welfare (HSW or as listed in CES Discovery as LU/ HSW): For a provider to offer LU/HSW designated courses it must meet all of the criteria outlined in the HSW section of the manual and be registered as such. HSW courses tend to be in demand. For more information visit www.aiaorlando.com, scroll over Education and select Credit Provider.

EVENTS

Allied Advantage Breakfast

**2nd Wednesdays
8:00 am–9:00 am**

AIA Orlando hosts a monthly Allied Advantage Breakfast, featuring an Architecture Firm of the Month, on the 2nd Wednesday of each month! These breakfasts allow our Allied Members to learn about various local firms and potentially build future business relationships. It is beneficial for both the Allied Members, as well as the presenting architecture firms, as this will allow firms to answer the many questions our Allied Members have to better their service to our local firms.

Each month's featured firm will host a small presentation about the company, the markets they focus on and any other item they find appropriate to share about their companies. This will give our Allied Members information on what would be required to do be considered as a potential vendor on their various upcoming projects. Don't miss this exclusive opportunity to get in-depth, insider insight and access to future opportunities!

A.R.E. Study Sessions

Visit www.aiaorlando.com for dates and times.

Join us for A.R.E study sessions as you are prepping for your exams. We will have Licensed Architects giving specific test prep strategies and answering any tough questions you may have. All sessions will feature small groups that focus on each of the Exams in an order that will help facilitate each members path to licensure.

Building Tours

Visit www.aiaorlando.com for dates and times.

Take an in-depth tour of various facilities throughout Central Florida, sometimes even before they open to the public and learn about their history, architectural influences, construction challenges, functionality and applications, and latest technologies as we go behind the scenes for an immersive experience.

Legislative Days

January 22nd & January 23rd, 2024
Tallahassee, FL

AIA Florida Legislative Days will take place on January 23rd in Tallahassee's Capitol complex. The face-to-face meetings with Florida legislators are back this year! We are thankful to have the opportunity to engage with the legislators to advocate for our profession. We hope to be represented with a large AIA Orlando contingent in a return to the Capitol.

Golf Tournament

Friday, February 2nd, 2024
7:00 am-2:00 pm
Eagle Creek Golf Club

The Annual Golf Tournament brought architects and design professionals together with vendors and allied professionals from A/E/C industries for a day of friendly competition to raise scholarship funds for students facing financial hardship. Proceeds from the tournament benefit continuing education programs and scholarships for students studying architecture in America's only 2+2+2 architectural degree program. The Orlando Foundation for Architecture (OFA) works with AIA Orlando on these events to fund the scholarship program every February.

AIA LEADERSHIP SUMMIT

AIA Leadership Summit brings together AIA volunteer leaders, chapter executives, and chapter staff across regions, specialties, firm sizes, and career stages. This year's theme—Architecture's Generations at Work—focused on building bridges to create a better world and a stronger profession, skills you can apply to every facet of your professional life.

GOVERNMENT AFFAIRS

AIA Orlando needs members to take the lead for advocacy in their local communities to strengthen the voice of the architectural profession. Through the collaboration of legislators and staff, AIA members share information on issues that affect architects. Some of the key areas of focus for the Government Affairs Committee include growth management, historic resources, school construction, & urban design.
